Fishing is a life long sport. Something you can do alone, with your best friend, your family or anyone. Many adults who grew up with a fishing pole in their hands feel it is one of the best sports they ever started because of the rewards all through their life.

In your essay of one hundred (100) words or less, we would like to know what you think you will gain, learn, and develop from this fishing experience

Your essay to the following statement will be judged against all other students to determine who will be invited to participate in The Mississippi Walleye Club, Inc., Kid’s Day Fishing Tournament /Sportsman Expo which is offered to grades 4, 5, & 6. Use additional sheets if you need more space.

“Why I Want To Go Fishing”
